ALUMINIUM ALLOY SHOE COVER DISPENSER

Based on our customer's good suggestion and summarize our best experiences, today we design the new kind of Aluminium Alloy shoe cover dispenser. The capability is more steady, the cover look is very modern , the method of installation is more easier and more safely than the other kinds.

The cover is made from the material of Aluminium Alloy, and the inside frame is made from steel parts, so that is why we can assure the capability steady and could be used long time.

Inner Mechanism

CAPACITY:

Every time it can hold 70-80 pcs shoe covers , but we advise to install 70 pcs per time.

Using steps:

Step 1

Step 2

Step 3
